Aloe Energy research

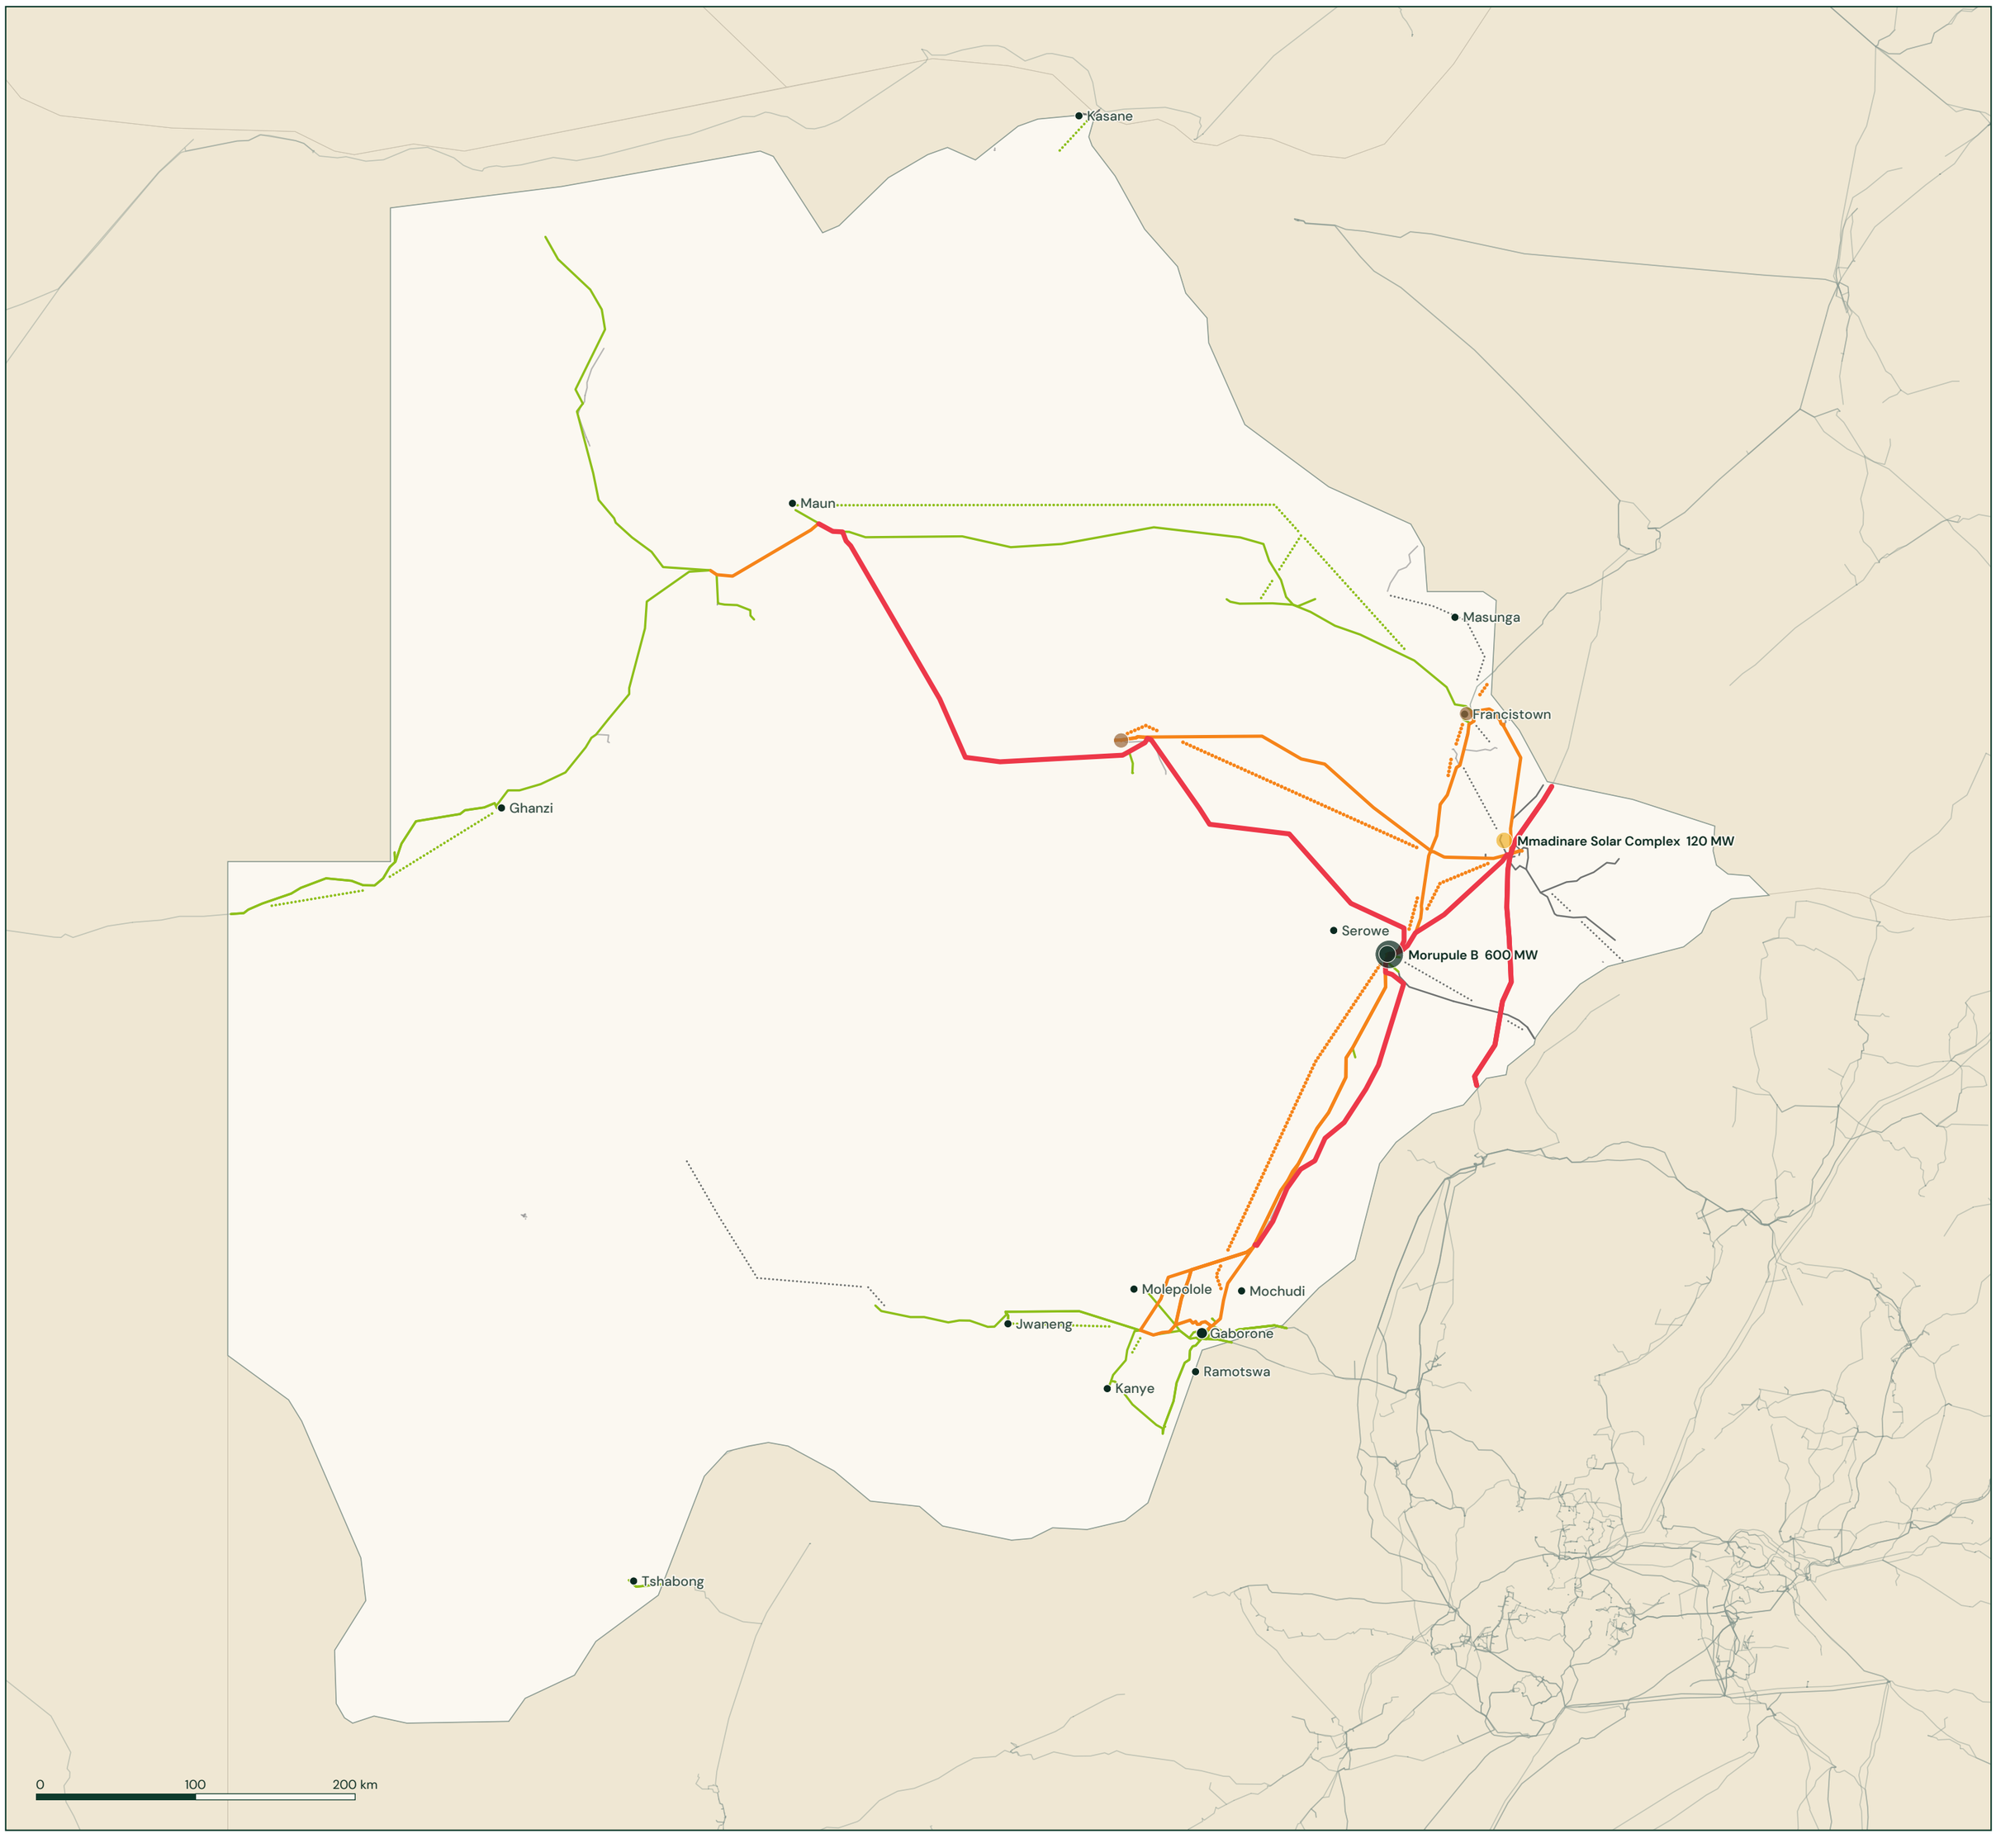

Botswana's power grid today

The high-voltage grid and the power plants running in November 2026

7,808 km of lines, 66 kV and above · 5 power plants of 10 MW and above (1,012 MW)

Grows where the grid hasn't.

Edition 1 · Data as of November 2026

How to read the map

- 400 kV
- 220 kV
- 132 kV
- 66 kV
- Voltage not recorded
- Dotted: missing from OpenStreetMap, from utility or World Bank maps
- Grey: lines in neighboring countries

Power plants, 10 MW and above

Coal · Oil · Solar

20 MW · 200 MW · 1,000 MW

Town or city

In numbers

- **1.0 GW** in 5 operating power plants of 10 MW and above
- **7,808 km** of mapped transmission lines, 66 kV and above
- **64** substations mapped
- **72%** of operating capacity is coal

What runs Botswana today

Coal 732 MW (72%)

Oil 160 MW (16%)

Solar 120 MW (12%)

Largest power stations

Morupule B (coal)	600 MW
Morupule A (coal)	132 MW
Mmadinare Solar Complex (solar)	120 MW
Orapa (oil)	90 MW
Francistown APR (oil)	70 MW

Sources. Transmission lines: contains information from OpenStreetMap, which is made available under the Open Database License (ODbL), extracted 4 November 2026; lines missing from OpenStreetMap from World Bank 2017 Africa grid. Power plants: Global Energy Monitor Global Integrated Power Tracker (September 2026, CC BY 4.0), a project register built from public sources, WRI Global Power Plant Database v1.3, OpenStreetMap and the World Bank AICD inventory. Transmission projects: utilities, power pools, funders and news reports; master plans: SAPP master plan 2025-2045 (draft). Towns: GeoNames (CC BY 4.0). Boundaries: Natural Earth.

Routes are indicative, drawn substation to substation. This map is for information only, not for engineering, investment or navigation decisions. Boundaries and names do not imply any view on their status. Free to print and share for non-commercial use with credit to Aloe Energy, unchanged (CC BY-NC-ND 4.0). Download both sheets at aloeenergy.org/posters. The companion sheet shows the plans to 2035 and beyond.
