Aloe Energy research

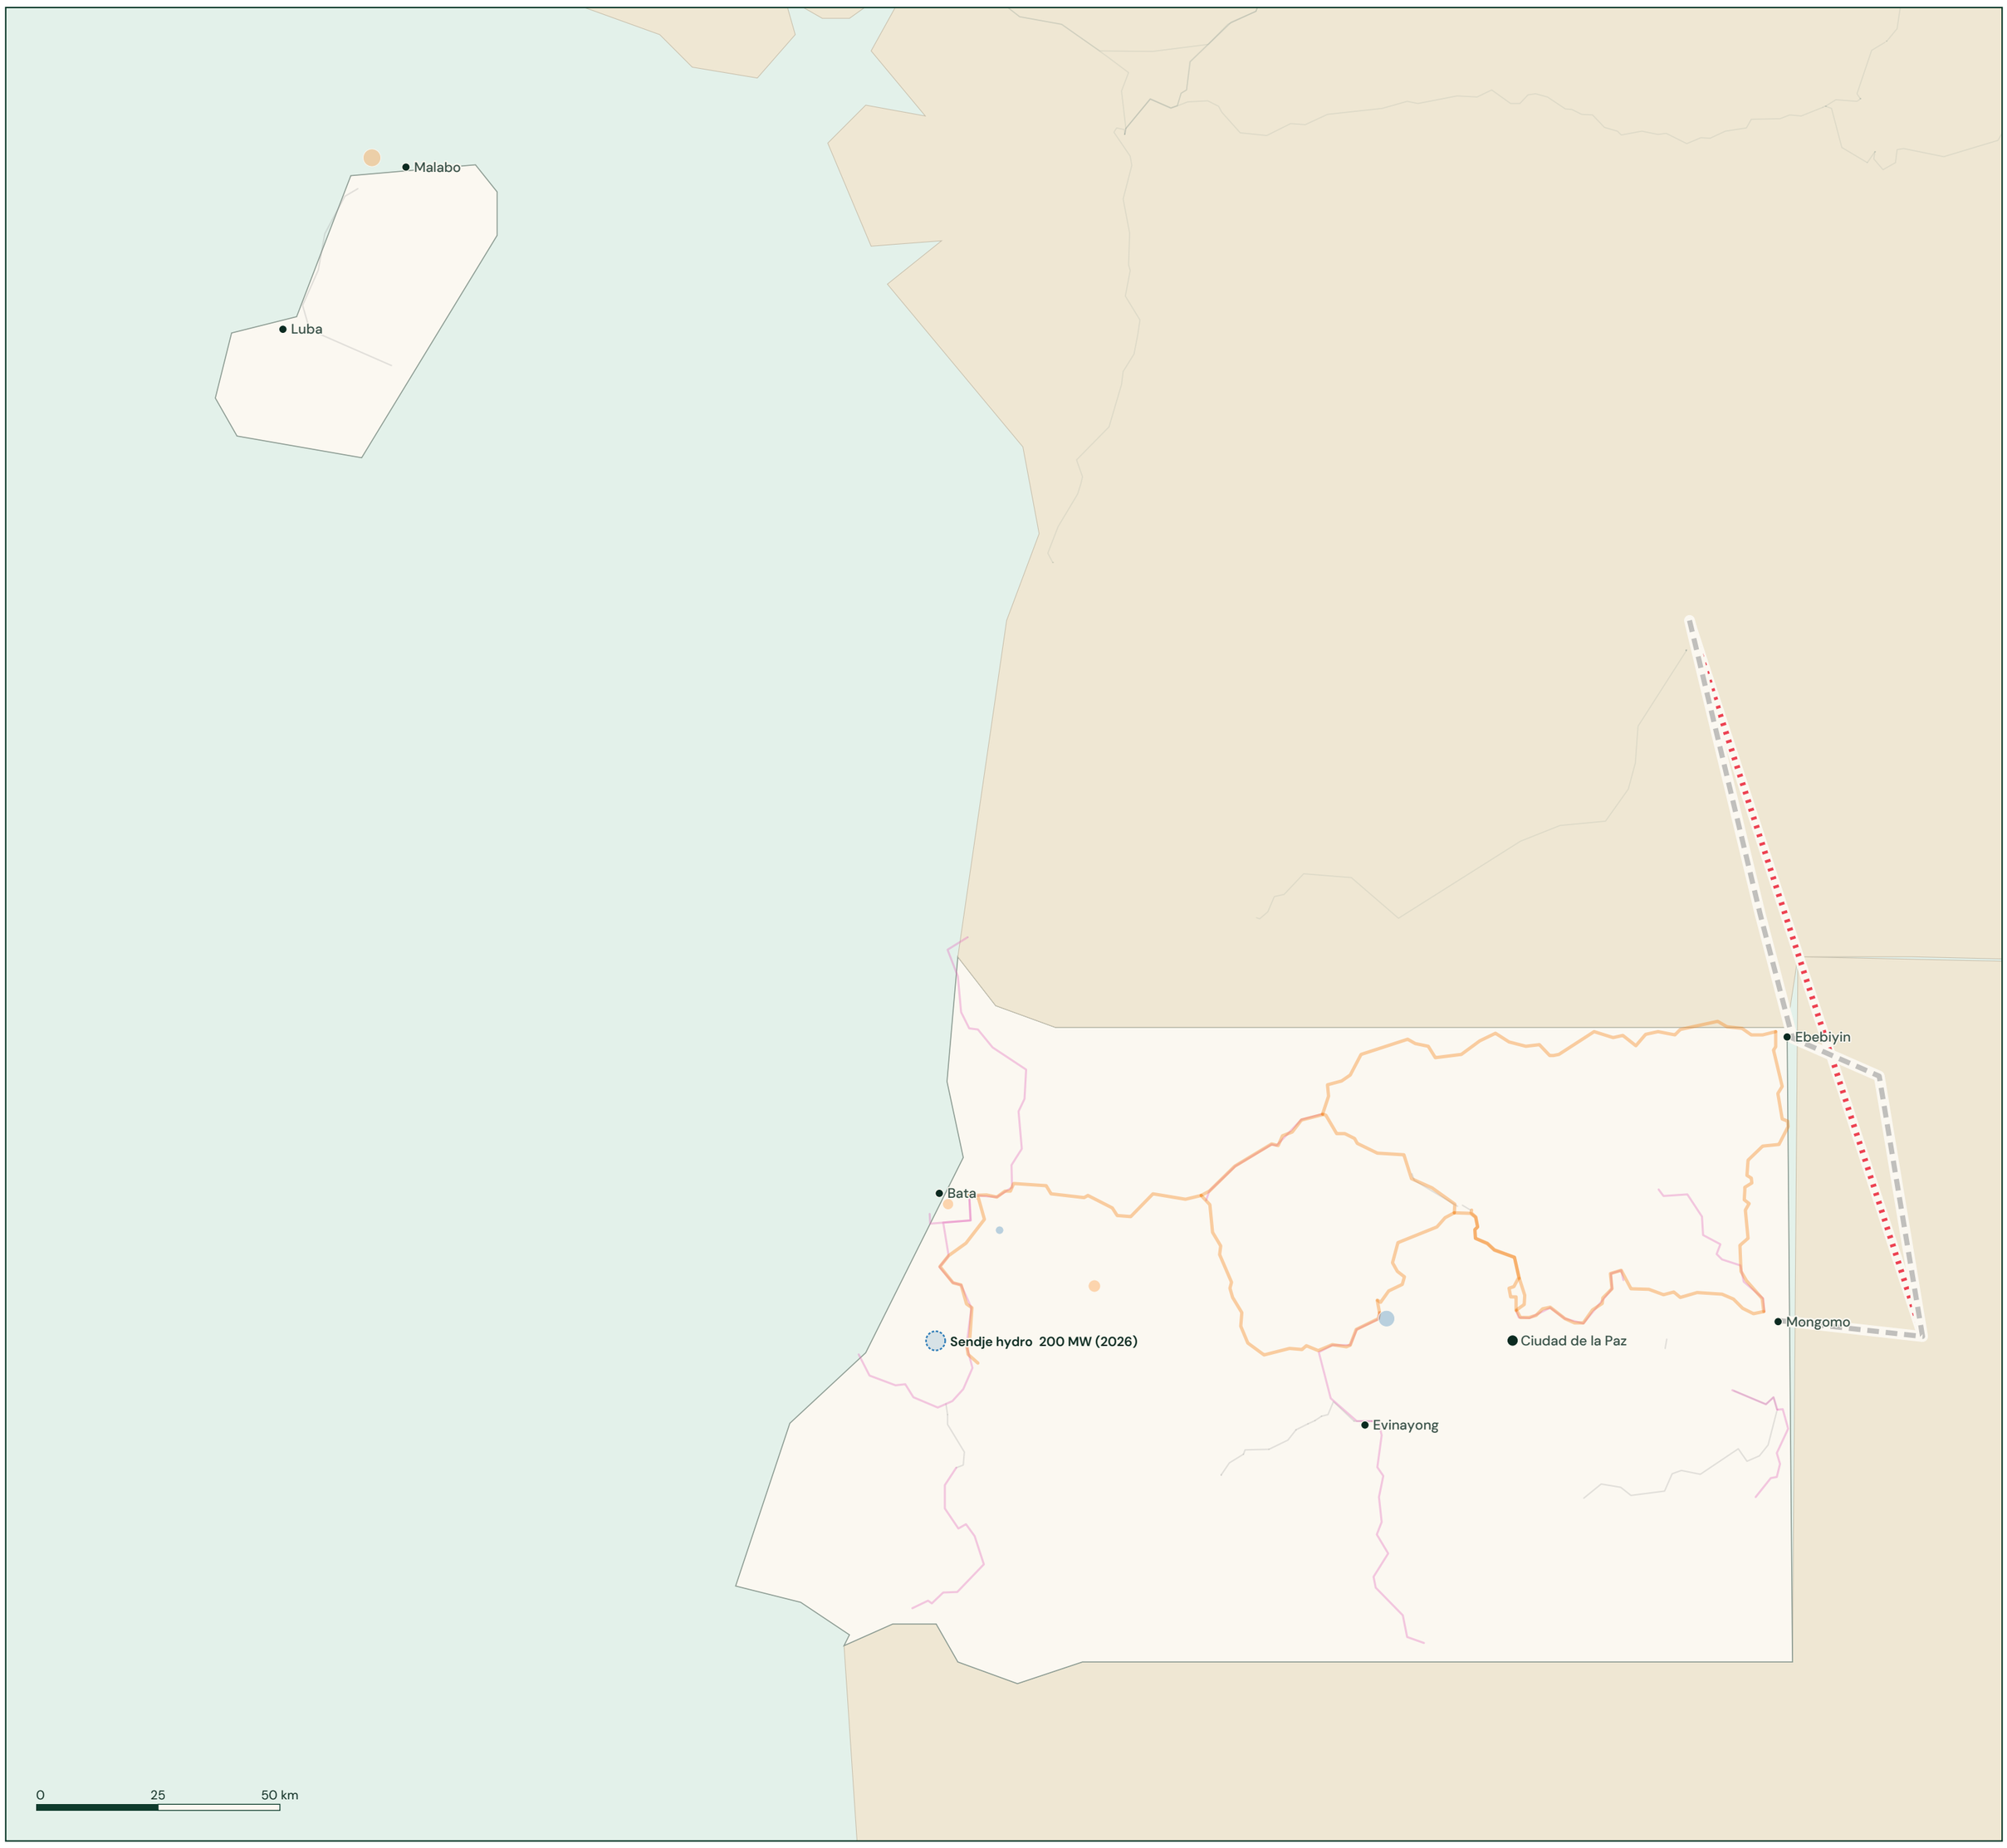

Grows where the grid hasn't.

Equatorial Guinea's power grid, 2035 and beyond

Planned lines and power plants, drawn over today's grid

1 power plants planned or being built (200 MW) · 1 transmission projects · 2 master plan links

Edition 1 · Data as of November 2026

How to read the map

- 220 kV
- 110 kV
- Voltage not recorded
- Grey: lines in neighboring countries
- Dashed: transmission project (indicative route)
- Faint dashed: undated or concept
- Dotted: master plan interconnector

Power plants, 10 MW and above

Hydro · Gas · Solar

20 MW · 200 MW · 1,000 MW · ring: not yet built

Town or city

In numbers

- **0.2 GW** in 1 power plants planned or under construction, against 0.3 GW running today
- **1** transmission projects not yet in service
- **2** interconnectors in the master plan

What is being built and planned

Hydro — 0.2 GW

Solid: under construction (0.2 GW). Light: planned (0.0 GW).

Projects to watch

- **Sendje hydroelectric plant, 200 MW**
  Under construction · 2026
- **Cameroon - Gabon - Equatorial Guinea interconnection**
  Feasibility · about 2033

Sources. Transmission lines: contains information from OpenStreetMap, which is made available under the Open Database License (ODbL), extracted 4 November 2026. Power plants: Global Energy Monitor Global Integrated Power Tracker (September 2026, CC BY 4.0), a project register built from public sources, WRI Global Power Plant Database v1.3, OpenStreetMap and the World Bank AICD inventory. Transmission projects: utilities, power pools, funders and news reports; master plans: CAPP priority projects (2017). Towns: GeoNames (CC BY 4.0). Boundaries: Natural Earth.

Routes are indicative, drawn substation to substation. This map is for information only, not for engineering, investment or navigation decisions. Boundaries and names do not imply any view on their status. *Free to print and share for non-commercial use with credit to Aloe Energy, unchanged (CC BY-NC-ND 4.0).*
Download both sheets at aloeenergy.org/posters. The companion sheet shows today's grid.
